

Tariff Surcharge

Dear Valued Customer,

As I am sure you're all aware, China and the United States are locked in an ongoing trade war, and each country has introduced tariffs on goods traded between each other. Due to this, some of our products have been affected, namely **Rayon Embroidery Thread** at 28 cents (\$0.28) per cone. Although Rayon thread is dyed, spun, and wound in the US, a portion of the fiber is imported from China.

The surcharges are to go into effect ***immediately***.

This will be seen as separate line item on any sales receipts and invoices, where applicable.

We will notify you of any changes in the tariff price. This surcharge will be removed immediately as soon as the tariffs are removed.

As always, thank you for your business.

Please feel free to call with any questions.
